

Math Expectations for 2011-2012

- Use the Pearson and Every Day Counts programs daily with fidelity
- Spend a minimum of 90 minutes on focused math instruction daily
- Attend math/literacy meetings every six weeks with your grade level team.
- A greater emphasis is to be given to the spiral review and problem solving portions of the Pearson program
- Daily math lessons will follow the Core and More lesson plan model, and will include sections for interactive learning, visual learning bridges, guided practice, independent practice, and intervention
